

Nano.2

Indiana Line – an Italian brand with traditions

Indiana Line is a brand that has been offering loudspeakers since 1977, and now also offers installation speakers. The optimized production process combined with the rational use of components distinguish this brand from competitive solutions with above-average quality of workmanship and sound.

Indiana Line installation speakers

Installation speakers available in the Indiana Line offer are models that will be perfect for amplifying even large areas, such as shops, gyms or restaurants. Among them you will find both wall-mounted and built-in models for walls or ceilings. With their use, you can create a stereo system and as well a home theater, where they can be used, for example, to play sound effects. Thanks to the stylish and universal design, Indiana Line installation speakers will fit into any room design.

Nano.2 – compact and universal

Nano.2 is a universal and at the same time small 2-way design that weighs 1,6 kg. It consists of a 10-centimeter woofer and a 24 mm tweeter. This model will be perfect for amplifying various public spaces. The Nano.2 loudspeaker can be placed e.g. on a shelf or bookcase (just like a standard bookshelf speaker), but also hung on the wall – perpendicularly or horizontally – using the metal

bracket included in the set. The Nano.2 model is offered in two colours – black or ice white, which additionally makes it easier to match it to the interior design.

The most important features of Nano.2 model:

- 2-way acoustical design
- Bass reflex cabinet
- Crossover frequency: 5 kHz
- 100 mm mid-woofer
- 24 mm tweeter
